

elements custom upholstery

YFI furniture is made in Thomasville, North Carolina. YFI upholstery features solid oak hardwood construction, corner blocked for joint reinforcement and double doweled with glued corners. Seat cushions contain a foam core of at least 2.0-density, high resiliency foam, 5.5" thick. The foam core is wrapped in multiple layers of polyester fiber and encased in a non-woven ticking material/bag. Back cushions are made of the same polyester fiber as seat wrap. The inner casing is channel stitched, to maintain comfort and appearance. A 2 oz. slickened fiber is sewn to non-woven backing to prevent fiber migrating through the casing. Sleeper sofas feature 5" thick innerspring mattresses. Tubular steel construction, dual tubular legs added for support, TV headrest with anti-tilt to prevent unwanted closing of unit, sleep support cross wires for added comfort and seat support cross wires for added support when sitting on end of opened sleeper.

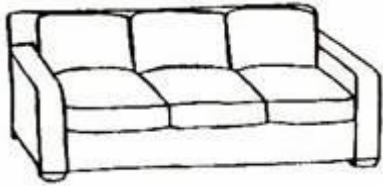

Choose from a variety of fabrics on these contemporary designs. Leather is available only on the Ottoman series.

Please allow 8 to 12 weeks for all special orders.
